

Cutera:

Before your treatment:

- Do not wear makeup on the day of treatment
- History of herpes or cold sores may require an anti-viral prescription prior to treatment

Aftercare:

- Wear mineral sunscreen and a hat until fully healed.
- Bruising, redness and swelling are common and resolve with time
- A “bug bite look” (small hives) is common and usually resolves in 1-2 days
- Avoid skin irritants (tretinoin, retinol, benzoyl peroxide, glycolic/salicylic acids, astringents) post-treatment
