

Morpheus8:

- Wear mineral sunscreen and a hat until fully healed.
- Bruising, redness, and swelling may occur lasting days to weeks.
- During the first two days following treatment the treatment area should be kept clean to avoid contamination or infection; any mechanical or thermal damage (AVOID hot tubs, saunas, etc.) to the area(s) must be avoided.
- Moisturizer (lotions and creams) may be applied 24-72 hours after each treatment and then should be applied regularly throughout the course of the treatment. Make-up may be applied only 24-72 hours after each treatment session. Generally, 24 hours after treatment, patients may use regular soaps, but not scrub soaps or exfoliates.
- Avoid skin irritants a few days post-treatment.
